

Today is a BIG day for Paris Independent Schools

Paris has completed the Round 2 application to Summit Learning. Based on our responses, we have been invited to join the Summit Learning Community as a partner school for the 2017-2018 School Year!

"I'm very excited and proud about what we are doing now in Paris and even more excited about a partnership with U.K. and the Summit Learning Program platform that will put teachers in a position to give constant and continuous help for students in the classroom to meet each child's individual needs. Paris is on the cutting edge with the demands of our world, and we are committed to getting better and better. Our kids deserve the best. The world's demands have changed so much, and we are committed to changing to prepare our kids. Teachers need a way to do more of what they have a passion for... working with kids in a truly meaningful way with each child. They will be more engaged with students, helping students become thinking problem-solvers more than ever before. Exciting things ahead."- Ken Bicknell, Superintendent

Principal Jami Dailey will soon begin meeting with students to share the exciting news. We will be hosting an informational meeting following Open House at 6 p.m. on Wednesday, March 15, 2017 at Paris High School. We will showcase this cutting edge learning system for our parents and community. We are one of a select few school districts across the nation that received this opportunity. Our partnership with the University of Kentucky's Next Generation Leadership Academy has been instrumental in our journey.

We have prepared well for this opportunity and are eager to begin the next steps in personalizing learning at Paris Independent Schools. We are over the moon with excitement about this announcement today and anxious to share with our community.

It is an exceptional time in our school district's history to be a Greyhound. Stay tuned...more information in the coming weeks.
