

Authenticated User Access to the Paris Independent Wireless Network.

The Paris Independent School District provides free wireless network access to our students and staff members. All devices which use our wireless network must be registered online.

There are two types of access. **Guest Access** which lasts for 24 hours and is available to anyone and **Authenticated User Access** which lasts for 300 days and requires that an appropriate BYOD (Bring Your Own Device) inclusive AUA (Acceptable Use Agreement) be on file at your school.

If you have not turned in the appropriate paperwork please use guest access.
The appropriate paperwork can be acquired from district and school offices

All network traffic on the district's network, both wireless and hard wired is routed through a proxy device which tracks usage and blocks websites considered inappropriate as well as many private and free e-mail sites.

Individuals using our wireless network are expected to use this opportunity appropriately. You are expected to be respectful of others and to practice responsible and appropriate digital citizenship while using our network. If you are not sure what "appropriate and responsible digital citizenship" means please visit: http://digitalcitizenship.net/Nine_Elements.html.

Connecting to the Paris Independent BYOD Wireless Network

- Go to the area on your personally owned device that displays available networks.
- Choose the Paris_Public Network
- When you attempt to go to any website that is not considered local (Example: Google.com) you will be taken to a screen which says "Paris Independent Schools" and given a link which says "Please click here to connect to the network", click that link.
- At the welcome screen go to "Student & Staff Login" and use the same login and password you would use to login to a school computer.
- After you have registered you will be taken to a "Welcome to the Network" screen where you must click the checkmark in the "I agree to the Acceptable Use Policy"* section then click "Complete Registration."
- It will take a few moments for the device to connect and register. After the registration is completed you will be redirected to the Paris Independent Schools Home Page.

You may connect two personally owned devices to the wireless network in this way. Please e-mail margaret.spickler@paris.kyschools.us from your school e-mail account if you need to unregister a device

The Paris Independent School District and its staff are in no way responsible for any personal devices brought onto our campus or any activities conducted from those devices.
